A chance to earn Promotional Points and move up a rank!

How Promotional Points Work

- The **Promotional Points** will be assigned to the **Shared Leg** for all Distributors (New and Existing).
- The **Shared Leg** is defined as the leg in which you are connected to the upline.
- **Promotional Points** only contribute towards 50% of the **Shared Leg** CV (300 CV out of the 600 needed CV) required to generate a cycle, the remaining CV (or 300 out of 600 CV) will be used from the existing or the new volume generated.
- Company reserves the right to reallocate CV to the opposite leg should any system manipulation be detected.
